

The screenshot displays the eSpline Model View interface for a SAP model. It includes a Table of Contents on the left, a Class Hierarchy diagram, and several detailed views for the class 'WP-048'.

Table of Contents:

- Classes
 - Characteristics
 - Dependencies
 - Class Hierarchy

Class Hierarchy:

```

classDiagram
    class WP-048
    class WP-048
    WP-048 --|> WP-048
    
```

Class WP-048:

Class	Type	Status	Valid From	Valid To	Description
WP-048	Class	Released	2010-10-01	9999-12-31	Online Phone Installation

Class Characteristics:

Characteristic	Characteristics	Characteristics	Valid From	Valid To	Required	Required	Required	Required
WP-048-001	Form	Form						
WP-048-002	Form	Form						
WP-048-003	Form	Form						
WP-048-004	Form	Form						

Class Specific Characteristics:

Characteristic	Value	Description
WP-048-001	Form	Form
WP-048-002	Form	Form
WP-048-003	Form	Form
WP-048-004	Form	Form

Class - Where used:

Used in Dependencies: WP-048-001, WP-048-002, WP-048-003, WP-048-004

Characteristics:

Characteristic	Description	Status	Type	Length	Unit	Indicator
WP-048-001	Form	Released	Form	100		
WP-048-002	Form	Released	Form	100		
WP-048-003	Form	Released	Form	100		
WP-048-004	Form	Released	Form	100		

Single Dependencies:

Dependency	Description	Type	Status	Source Code
WP-048-001-001	Form	Procedure	Released	Form
WP-048-002-001	Form	Procedure	Released	Form
WP-048-003-001	Form	Procedure	Released	Form
WP-048-004-001	Form	Procedure	Released	Form

Dependency nets:

Dependency Net	Description	Type	Status	Allocations
WP-048-001-001	Form	Procedure	Released	Form

Dependency Long Texts:

Dependency	Language	Line	Format	Text
WP-048-001-001	EN	1	TEXT	Form
WP-048-002-001	EN	1	TEXT	Form
WP-048-003-001	EN	1	TEXT	Form

Documenting or even displaying your entire SAP VC or IPC product model has not been available unless you wrote some special programs to do so, otherwise you are dependent on looking through the model using the SAP VC solution.

eSpline offers the SAP VC modeler a solution where you can not only document your product model in a pdf formatted document, but you can navigate through the model with hot links in HTML. [Here is an example of a complete model](#)

You will need to request access to the eSpline Managing VC Portal (SaaS) and obtain a login and password and once verified that you are a SAP Customer using the VC or IPC you will be granted access.

Requesting access is as simple as making a request in [Contact Us](#).
